OBJECTIVE OF THE CONFERENCE

To provide a platform to facilitate the scientists, researchers, academicians, industrialists, and students to exchange their knowledge, ideas and innovations.

To highlight recent advancements and challenges in the Physical Education and Sports Sciences approaches leading to uplift performance and safety in sports.

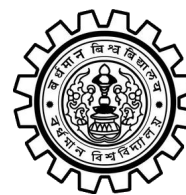

To enable the delegates to establish research or business relations as well as to find international linkage for future collaborations.

SCIENTIFIC PROGRAM

- The prime goal of this international conference is to provide a common platform for students, research scholars, academicians, athletes and industry professionals to share and discuss the recent advances in the field of sports and health science.
- This conference will be a road map to initiate partnerships across different disciplines, institutions and countries in order to spearhead cutting edge research in sports sciences aimed at significant breakthroughs in the field of sports.
- The conference will provide ample opportunities for the young researchers to share their experiences as well as knowledge not only with their fellow researchers but also with renowned sports scientists.
- By having interactions, as well as sharing the research work carried out in these areas, the new proposals can be designed with focused themes which shall lead to further development in the sports field and thereby improving the existing knowledge.
